Profile

Over 15 years of frontend engineering experience. 800+ completed projects. Open source developer. HolyJS conf program committee member. Podcaster.

Work Experience

Frontend Team Lead, Resume.io/Career.io, Remote

December 2018 — August 2022

Worked for an international product with 18 million users. Finished 100+ A/B tests, released 500+ features, maintained a big (200k+ LoC) React application, wrote microservices and edge-functions, led a frontend dev department.

CTO , Oleg Chulakov Studio, Rostov-on-Don

April 2014 — November 2018

Built a web development department from scratch and managed it to 5th place in the country. Led a 30-person development team.

Team Lead , Ruformat, Rostov-on-Don

July 2011 — March 2014

Developed e-commerce and corporate websites. Led a team of 10 developers.

Full Stack Developer , RSTU, Rostov-on-Don

September 2010 — June 2012

Maintained the company's website and developed internal tools.

Frontend Developer , Freelance

December 2008 — February 2011

Completed about 300 different frontend projects.

Activities

Open Source Projects (24M+ downloads monthly)

- [react-colorful](#) — the tiniest and fastest color picker component for React
- [colord](#) — a tiny yet powerful tool for color manipulations and conversions
