Brandon Drayton

FULL STACK WEB DEVELOPER

Professional Summary

I am an Army veteran with multiple manager positions and consulting experience in different fields, and I am switching to full-stack development simply because I enjoy it. I have worked tirelessly to build my front-end and back-end skills to improve my coding ability. I am open to relocation, and you will not find someone more motivated or suitable for this entry-level position at **TechOne Software.**

Education

Full-Stack Certificate, Digital Crafts, Atlanta

APRIL 2022 — AUGUST 2022

Employment History
