

PHUNG NGUYEN

React-based Specialist - React Native and
React.JS

Ho Chi Minh, Vietnam

phungnlg@gmail.com

PROFILE

I invest and dedicate my career as an engineer to React-based skill-set. I proficiently use React Native to develop mobile app projects and React.JS for web app ones.

I'm also a high reputation freelancer with crossing 2000 hours so far in Upwork, largest freelance platform in US, that successfully deliver dozens of complex mobile and web projects.

EMPLOYMENT HISTORY

Mobile Engineer, Beesightsoft [beesightsoft.com], Ho Chi Minh

MARCH 2017 – JULY 2020

- Worked well independently and on a software engineering team to develop and deliver mobile software projects for global clients in US/EU market.
- Well-versed in a diversity of mobile skill-set: native Android/iOS and cross-platform using React Native and Flutter
- Explored alternative path in web development with React.JS based on my previous experience with React Native.

Independent Freelancer, Upwork [upwork.com], myup.work/phungnlg

JULY 2020 – PRESENT

- Contracted on dozens of client projects to build, publish and growth mobile apps to App Stores using React Native cross-platform mobile technology.
- Also worked in several web app projects that using React.JS to create elegant, fully responsive landing pages, SaaS dashboards and more.
- As of 2021, grossing up to 2.000 Upwork hours, awarded with Upwork Top Rated Plus Program, trusted by clients world-wide on large contracts at the highest level of quality.
