

José Antonio Soto Hernández

COMPUTER SYSTEMS ENGINEER

Profile

I am a starter professional who enjoys learning about my career, current technology, and specific topics. I am disciplined, proactive, curious, and passionate about learning and sports. I am able to effectively self-manage during independent projects as part of a productive team. I am interested in web development, databases, web scraping, QA manual, performance and automation, applications with Python, help desk, and IT support.

Education

Computer Systems Engineering, Instituto Tecnológico de Veracruz

JULY 2016 – JANUARY 2022
