

PROFILE

Atlassian Certified Master who is passionate about getting things done with minimum effort and creating opportunities for businesses to automate processes and increase ROI. After almost a decade, I have strengthened my knowledge and experience working with Atlassian product suites such as Jira Software, Jira Service Management and Confluence. I have worked in many various roles such as Business User, Software Engineer, Project Manager, and Scrum Master.

I establish my strong reputation on Upwork with Top Rated Plus badge and 100% 5-star ratings from clients worldwide.
